

CORPORATE OVERVIEW

At Express Scripts, we make the use of prescription drugs safer and more affordable.

We share a common cause with each of our clients, helping them to offer a healthy prescription-drug benefit today, tomorrow and into the future. It is increasingly obvious that spending additional healthcare dollars for no additional health benefit is wasteful and threatens the very existence of employer-sponsored benefits. We align our interests with those of our clients, working with them to help protect the prescription-drug benefit by offering proven programs to drive out waste.

Major U.S. Locations

Express Scripts is headquartered in St. Louis and maintains major administrative facilities in Bloomington, Minn.; Parsippany, N.J.; Tempe, Ariz.; and Orlando, Fla.
